BOUDREAUX

This Boudreaux collection blends mid-century modern influence with contemporary glamour, pairing slender metal lines with smooth globe shades for a look that feels both airy and sophisticated. The rounded glass forms soften its structured silhouette, while the exposed bulbs add a warm, luminous quality and enhance its sculptural appeal. Elegant yet approachable, it brings polished style to dining areas, kitchens, bedrooms, hallways, and living spaces.

COLLECTIVE

The excitement of mid-century modern design is evident in the understated elements of the Collective series. Angled sockets create a different perspective inside the large glass globes, which are cleverly held by metalwork that conforms to the curves of the glass.

MODULE

The Module collection exudes mid-century energy combined with a bit of subtle industrial detailing through its knurled die-cast sockets. Module is finished in burnished brass or satin nickel.

CAROLINE

The Caroline collection features custom designed tubing with angled edging which create sharp contrasting lines on each item. The brushed gold finished metalwork is further complimented by the sharp lines in the three-part die cast glass holders which clasp opal white glass globes.

BARRINGER

The Barringer collection emulates simplicity of form and clean lines inspired by the Mission period. This was a time for craftsmen to purify over-excessive ornamentation revealing the forms that lie beneath. The warmth of tan mica shades and an aged bronze finish adds to its character. Occasional surface flaking is normal and natural with mica shades and will not affect its performance.

LYRIDS

A speckled glass shade, reminiscent of a meteor shower, modulates the light emanating from the Edison lamp, softening its glow while allowing the strong, simple silhouette to shine on. Lyrids comes in a small or medium wall mount in addition to a post, to enhance the beauty and security of your home’s exterior.

WATERFALL

Clear molded glass is made even more luminous by a matte black frame. The result: understated glamour that’s appropriate for transitional or traditional outdoor settings. Install the sconces at either side of an entrance and add matching post to illuminate a walkway for a uniquely memorable effect.

POLYGON

Unique in outdoor fixtures, this six-sided diffuser reinvents classic design while its wavy texture glass casts a romantic mood even as it illuminates. The frame, in a matte black finish, further defines this refined fixture.
